

# Monthly Special

Valid from 1<sup>st</sup> January - 29<sup>th</sup> February 2012

## SAFETYBOX

As a small business you put your energy and your passion into differentiating your business and building success. Therefore the only outside the box thinking you want to be doing is that which helps you grow! Effective Occupational Health and Safety (OHS) processes can be a big drain on the resources available to small businesses. So to enable you to focus on the bigger picture, we've developed an 'in the box' solution that simplifies safety for you. Each SafetyBox contains;

- A fully compliant Occupational Health & Safety Management System
- A complete set of Occupational Health and Safety Policies, Procedures and Forms
- A CD with electronic versions of all policies and forms to easily customise for your business
- A sign in register for visitors and contractors with lanyards to wear
- A First Aid Kit with signage for internal noticeboards
- An outline of the New OHS laws for 2012
- An OHS documents management folder
- Full instructions
- Free phone support

**Normally priced at \$1,900.00 per SafetyBox (ex GST)**

## JANUARY/FEBRUARY SPECIAL
