

Wendi O'Shea-Ryan

Recovery Partners

Wendi started in March 2011 and has over 15 years IT experience. She has held a wide range of IT roles including; Systems Administrator, IT Manager, Oracle dba and Support Analyst. Wendi has gained her experience over a range of professional service companies (mostly legal), however she has crossed into the creative and academic area (as Network & Support Manager for Film Australia), as well as providing support for the School of Chemical Engineering & Industrial Chemistry at UNSW.

Wendi has also worked as the IT Manager at Gadfly Media, working with the web production team post the Sydney 2000 Olympics. During these years, she had managed many projects, including the support of Optus Vision on their initial roll-out of network infrastructure for PayTV services, total infrastructure replacement of technology, software development and integration of new technologies and database solutions.

Wendi has a Science Diploma in IT from UNE, Cert IV in Training and Assessment, numerous IT Certifications, has studied Economics and Political Science at UNSW and endeavours to complete a Bachelor of Computer Science at UNE.

For the past 9 years, Wendi has also run a small IT Consultancy company (part-time) and is also a part-time TAFE Teacher of ICT & Design, as well as Project Management for the Business College at St George, affiliated with AGSM.

Outside her busy work schedule, Wendi enjoys spending quality time travelling with her young family, playing golf and being at the beach.
