

# Robyn Pratt

**Recovery Partners**

Robyn was working in her own business with her Husband before she decided to 'retire'. After spending some time at home, she soon realised that she wanted to continue working. Robyn went back to work and started at Jobnetwork and worked her way through the ranks, where she eventually found her love of Employment Services; so much so that she successfully completed her Certificate IV in 2009.

Robyn came to Recovery Partners with over 8 years experience in Employment Services. Her experiences from both her career and in life have given her the skills and talent to excel in this field of work. Robyn herself understands how to overcome fears of recommencing employment and it is this expertise that allows her to build rapport with her clients and achieve positive outcomes.

Robyn has a passion for assisting workers to gain sustainable and rewarding employment, and over the years she has built a library of amazing success stories. Robyn will never give up on anyone and she firmly believes that the right job is out there for anyone.

Outside of Recovery Partners, Robyn enjoys playing golf, walking, swimming, anything outdoors and spending time with her friends and family, especially her three grandsons.
