

Managers and Supervisors Training

Recovery Partners

This used to be a WorkCover Accredited Course and is still recommended for Managers, Supervisors and others overseeing OHS responsibilities within an organisation.

Topics covered include;

- **Legal Obligations** - understanding how the law works in relation to OHS in NSW
- **OHS Responsibilities** - how the legal obligations translate to and affect your employees
- **Consultation** - why it is mandatory, discuss the current practice with your organisation and how it can be made more compliant and effective
- **Risk Management** - using your current OHS Management System actual risk assessments will be completed using the Risk Matrix and Hierarchy of Control
- **Incident Management** - investigating incidents and using the information to feed back into the OHS System
- **Workers Compensation** - briefly looks at obligations under current law and how efficient Incident Management can drastically reduce your organisation's insurance premiums
